AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

- 1. (currently amended): A voice coil motor of the movable coil type comprising:
- a stator comprising of a permanent magnet, the stator producing a which becomes a magnetic field; and
 - a movable element of an armature coil, wherein
 - the armature coil is formed into a coil-shape having a cavity portion, and
- a reinforcing beam made of non-magnetic and highly rigid material is formed at a substantial center of the cavity portion.
 - 2. (currently amended): A voice coil motor of the movable coil type comprising:
- a stator <u>comprising</u> of a permanent magnet, the stator <u>producing a</u> which becomes a magnetic field; and
 - a movable element of an armature coil, wherein
- a highly rigid reinforcing member, the shape of which is the same as the coil section, is arranged at an end face of the coil-, and
 - the armature coil is formed into a coil-shape having a cavity portion.

AMENDMENT UNDER 37 C.F.R. § 1.111 Attorney Docket No.: Q85159 U.S. Patent Application No.: 10/516,460

3. (currently amended): A voice coil motor of the movable coil type comprising: a stator comprising of a permanent magnet which becomes a magnetic field; and a movable element of an armature coil, wherein the armature coil is formed into a coil-shape having a cavity portion,

a reinforcing beam made of non-magnetic and highly rigid material is formed at a substantial center of the cavity portion, and

a highly rigid reinforcing member, the shape of which is the same as the coil section, is arranged at an end face of the coil.
